Frameworks & Libs: React.js, Node.js, Express.js, Tailwind CSS, REST APIs, Framer Motion
Tools & Databases: MySQL, Firebase, Git, GitHub, Vercel, Railway, Postman

WORK EXPERIENCE

Python Developer Intern • *Alfido Tech*

Aug 2025 – Sep 2025 | Remote

- Developed and tested Python scripts to automate data processing and backend execution logic.
- Collaborated with dev team using Git version control, refactoring code to improve maintainability.

Web Developer Intern • *InternPe*

Nov 2025 – Dec 2025 | Remote

- Built interactive, responsive front-end components using HTML5, CSS3, and JavaScript.
- Integrated REST APIs into React.js applications to create modular and reusable user interface elements.

KEY PROJECTS

Study-Mate AI – *AI-Powered Study Planner*

React.js, Node.js, AI/API Integration

- Built an AI-driven planner that generates personalized study schedules, progress tracking dashboards, and analytics.

Health Nav – *Healthcare Doctor Recommendation System*

React.js, Node.js, MySQL, REST APIs

- Developed a specialist matching platform recommending medical specialists based on user symptoms, age, and duration.

Ready-to-Eat – *Real-time Food Ordering Platform*

React.js, Node.js, Firebase, MySQL

- Designed a web application for browsing menu items, placing orders, and tracking status with real-time Firebase services.
