

MUTHUKUMARAN S

Phone: +91 7402200654 | Email: sureshmuthu1212@gmail.com | Location: Coimbatore, India

CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience in Python, JavaScript, and full-stack web development (React.js, Node.js, MySQL). Skilled at building and deploying web applications end-to-end, with a strong foundation in problem-solving and a track record of shipping multiple independent projects. Seeking a Software Developer / Web Developer Intern role to apply and grow these skills in a collaborative engineering team.

WORK EXPERIENCE

- Python Developer Intern — Alfido Tech

Aug 2025 – Sep 2025

 - Wrote and tested Python scripts to automate data processing and backend logic, strengthening core programming and debugging skills.
 - Collaborated with the development team on assigned modules, following coding best practices and version control workflows using Git.
 - Debugged and refactored existing code to improve readability and performance.
- Web Developer Intern — InternPe

Nov 2025 – Dec 2025

 - Built responsive front-end components using HTML5, CSS3, and JavaScript, translating design requirements into functional UI.
 - Integrated REST APIs to connect front-end interfaces with backend data, handling API requests and responses.
 - Worked with React.js to develop reusable components, improving maintainability of the codebase.

PROJECTS

- Health Nav

Dec 2025

Tech Stack: React.js, Node.js, MySQL, API Handling

 - Built a healthcare web app that recommends the appropriate doctor/specialist based on user-reported symptoms, age, and symptom duration.
 - Designed the symptom-to-specialist matching logic and structured the MySQL schema to store user and doctor data.
- Study-Mate AI

Mar 2026

Tech Stack: React.js, Node.js, AI/API Integration

 - Developed an AI-powered study planner that helps students create and track personalized study schedules.
 - Implemented AI-driven plan generation and progress tracking features to keep users on pace with their goals.
- Ready-to-Eat

Jan 2026

Tech Stack: React.js, Node.js, MySQL, Firebase

 - Built a mobile/web ordering platform that lets users browse, order, and track ready-made food from nearby restaurants in real time.
 - Implemented order tracking and deployed the application using Firebase for backend services.

EDUCATION

- SNS College of Engineering

2024 – 2028

B.E. — Computer Science and Design
- Vidhya Giri Hr. Sec. School

HSC — 82% (2023–2024) | SSLC — 82% (2021–2022)

TECHNICAL SKILLS

- Languages:

C, C++, Python
- Frontend & Backend:

HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Node.js, REST API Handling
- Database:

MySQL
- Deployment:

Vercel, Firebase, Railway
- Tools:

Git, GitHub, VS Code, Antigravity
